### DETAILED ACTION

This application is a rule 371 continuation of PCT Serial Number PCT/FR99/02691.

Claims 13, 14 and 53 have been canceled.

Claims 1-12, 15-52 and 54-59 are currently pending.

### *Election/Restrictions*

1. Claims 1-11, 16-31, 33-51 and 57 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 15.

Accordingly, claims 12, 15, 32, 52, 54-56, 58 and 59 are the subject of examination in the present Office Action.

In view of Applicant's amendment filed November 4, 2005 and Applicant's remarks filed August 1, 2005 no outstanding grounds of rejection are maintained.

### *Priority*

2. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 12, 15, 32, 52, 54-56, 58 and 59 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art

Art Unit: 1644

that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a NEW MATTER rejection.

Claims 12, 58 and 59 have been amended to recite “heterologous recombinant class II molecules.” Applicants assert that support for the term “heterologous” can be found in the specification as originally filed at page 12, lines 19-22 and page 12, line 28 to page 13, line 2. However, the cited passages of the specification disclose only the nature of preferred embodiments not instantly claimed. The passages describe “conventional” and “non-conventional” MHC class I molecules. Not only do the passages fail to provide any support whatsoever for the term “heterologous,” the passages also do not disclose any aspect whatsoever that relates to MHC class II molecules.

Accordingly, the term “heterologous recombinant class II molecules” does not find support in the specification or claims as originally filed and constitutes NEW MATTER.

### *Conclusion*

4. No claim is allowed.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
